MINOR and ROBERT BLUM, CLAUDE and KENT SEELY, senior and junior members of each firm combine to hold another Polled Shorthorn Sale.

Regardless of other sales, there is no question that this sale offers more than any previous sale and as much or more than any other Polled Shorthorn sale in the country. Both herds have dug deep and are sharing their very top cattle with fortunate new owners.

The record of both herds at National Congress sales, state fairs and Omaha sales stands and need no elaboration. All are experienced cattlemen of long standing and their selection of herd bulls, other seed stock and herd management will attest to this. In addition, their list of satisfied customers is their best recommendation.

This sale offers some great bulls by proven great sires that are halfbrothers and closely related to other proven great sires. They are the modern kind with size, scale and red meat muscling. Herd bull problems for top herds will be solved here.

The female offering is without a doubt one of the very best that will be offered anywhere. It has everything. Breeding, quality, productivity and made up of great young cows with calves, bred cows, bred heifers and open heifers. A feature is a group of twenty-two outstanding young cows and two-year old heifers with calves or near calving, all by the same sire who sired a National Congress champion and top bull, and other Congress and state fair winners and all bred to an outstanding young bull. Here is a nucleus for a top herd it would take years to build.

It is important that you study this catalog carefully, then come to the sale and you will agree that all that has been said is definitely evident and you will want to own some of these good Polled Shorthorns.

We invite everyone to be with us at Spencer, Iowa on September 26 for our joint Blum-Seely Polled Shorthorn Sale. Since our last sale in early 1967 our herd has again grown to where we can present another offering. However, to do this we had to dig deep into our breeding herd so are sharing our very top cattle with you.

We feel this is the best group of cattle we have ever offered and are confident that you will agree after your personal appraisal.

We are pleased to again be association with the Seelys in this sale since they are selling a great group of young cattle. Between the two herds this should be a solid, well balanced offering to fill the needs of everyone.

We shall be looking for you on September 26.

**The attractive Seely Farmstead with good Polled Shorthorns
in the foreground.**

This farm has been owned and operated by the Seely family for over 100 years.

We invite everyone interested in Polled Shorthorns and good beef cattle to be with us at Spencer, Iowa on September 26 for our joint Blum-Seely Polled Shorthorn Sale.

Even though we sold a large group of cattle in our early 1967 sale, our herd has grown to where it numbers nearly 300 head so are in strong position to offer a group of top cattle. To make this sale as attractive as possible we are sharing our very top cattle with you.

We have always vowed that we would never sell many of the daughters of the great sire of our Congress champion bull and other Congress and state Fair winners, Perfect Nugget x, yet here they are, twenty-two of his daughters, young cows and two year old heifers that we should not part with. This group could well be the start of a herd it would take years to build.

We are pleased to again be associated with the Blums in this sale. They offer a great group and give balance to the sale.

We trust that we will see you on September 29.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
